PROFILE

I am a front-end developer with around 9 years of experience specializing in building CRM and SaaS platforms, corporate websites, and landing pages. My core technologies include React, Vue, Angular, Svelte, Next.js, Redux, TypeScript, and Tailwind. I also have experience working with GraphQL, REST APIs, gRPC and data visualization using Chart.js and D3.

Focused on results, I strive to deliver not just completed tasks but functional and user-centric products. The best validation of my efforts is seeing my work go live and perform as expected.
